MEMORANDUM FOR: [REDACTED]

1. As you know the Medical Staff has recommended that we consider an eighteen-month tour of duty for Project [REDACTED]

25X1A6b

2. I realize that this might pose some problems for you and perhaps we should consider doing something like we did on [REDACTED]. This was to make the tour of duty eighteen months with the implicit understanding that most people would actually extend long enough to complete a two-year tour of duty. Through this arrangement most employees did stay a full two years. However, in case the family failed to adjust well to the situation, or for any other good reason, it was possible for them to leave at the end of eighteen months without any stigma attached.

25X1A6a

3. I think that we ought to give serious consideration to this suggestion and perhaps deal with it in our reply to the Inspector General.
